“Indigenous to Indigenous: A message of Unity, Peace, and Empowerment Partnered in Global Economics”

Sharing how five centuries of unchanged theft of indigenous lands, resources disguised through a horrifying process entitled by foreigners called “colonization”. Validated through time, history has recorded many truths untold, buried by colonizing invaders, as to what is the European colonizers insatiable driving force, is there a human addiction to a uncontrollable “Greed” which is passed on in genes from generation to generation, as their new man made substituted God! This Greed has grown among generations into a new super power in just over two centuries, called America. If anyone would like to know the real hidden character of America, will they make for faithful allies, honorable treaty holders, holding in honor to government negotiated written, signed legal documents, has the early european greed been inherited by the founding fathers, unto the present generation in 21st century, has American changed at all, answer is No, just talk to the native indigenous population whom has the longest know association with Amereica before they even become America. My Oneida Indian Nation of NY (OIN) were George Washington and thirteen Colonists first allies, as the OIN shared its Great Law of Peace to which G. Washington, founding fathers and Colonist utilized to formulate grounds for creation of the Constitution of America, untaught history now is revealed.

I must hold firm to my Indigenous conviction to bring forward now, unspoken truths in a factual format. No matter if facts are embedded with political evils such as U.S. Presidential directives from the White House ordering military actions to delivery blankets infected with small pox to be delivered to freezing American native Indians, as dictated in late 1800’s again, directed from the Americas Presidential White House. Another astonishing White House federal directive ordered a military example to be made of fleeing freezing, starving natives whom are located fleeing off designated government indian reservations, such as this massive native massacre dated December 29th 1890 mid winter, on the Lakota Pine Ridge Indian Reservation in the U.S. state of South Dakota. As is called and known by indians as the "Massacre at Wounded Knee”, please remember the details, this event has been listed by America still on books to this date, as a Great U.S. "military victory". Ironically the White house even bestowed awards of medals to these murdering calvary soldiers, twenty “ Medials of Honor”

were awarded to soldiers that murdered the most woman, children as these natives were viewed as giving birth to more disgusting indians and children grow up to become fighting men. What is not recorded in American history is gruesome, as the soldiers cut the vaginas out of the woman and made hand bags for trophies, woman breasts were cut off before they could freeze and the solders played football with these woman's breasts in the dirt.

Racism in America toward Indigenous has gone unchanged in five centuries of colonization including lack of U.S. A. courts, injustice for Indians continues on into the 21 century, as the Indigenous battles rage on in the Supreme Courts which Judges racially provide unequal rights, still to all native issues in America. Please look closely at the U.S. military calvary soldiers in the below photograph, envision those white men standing about gloating, playing football with woman breasts, laughing at the gross frozen positions of dead bodies, seeing how far a soldier could physically throw a Childs body into the mass grave site as a contest, native indian scalps taken by hundreds as souvenirs (small children were not exempted), mostly of all men were elderly, women and children, as the men of fighting age were few who were out on hunting parties trying to find food for their starving Lakota families. Fact is event happened while indians ironically were legally and factually under full care and protection of the U.S. government, by self government claimed fiduciary powers, as natives were forced early onto the government designated indian reservations, which was the bleakest lands, most barren lands the government chose for indians, where weeds refused to grow. This massacre at Battle of Wounded Knee is just one of thousands of native injustices birthed in the wake of five centuries of American forced U.S. colonization, a stealthy form of early White House invented genocide. Continuous attempts of Indigenous genocide through out the colonized Western Hemisphere raged on for these past five centuries. It is only by this late 20th century the invention of the portable camera, as seen on most cell phones which public now may catch unfavorable government despicable acts still directed at Indigenous people, those photos now have contributed to a slowing down of massive killings of extreme poor in Latin America, or those Indigenous who might stand up to defend their families homes made out of 4 X 8 sheets of tin.

An accounting of preparing for December 29, 1890, near Wounded Knee Creek on the Lakota Pine Ridge Indian Reservation in the state of South Dakota. On the day before, a detachment of the U.S. 7th Cavalry Regiment commanded by Major Whitside caught Spotted Elk's band of Miniconjou Lakota and 38 Hunkpapa Lakota and escorted them a short distance

westward to Wounded Knee Creek, where the indians were forced to camp on the low land while soldiers camped on surrounding ridges above. The remainder of the 7th Cavalry Regiment (cornel George Custer's regiment name) arrived, led by officer Forsyth who in addition ordered immediately to continue to surrounded fully the these poor un-feed, freezing starving natives encampment, as the calvary was at that time supported by new military weapons providing heavy fire power, four new Hotchkiss rapid shooting guns.

On the morning of December 29, the soldiers entered the camp to disarm a few Lakota (as old delapidated hunting rifles were few among indians), who's weapons were for hunting needs, as most of government food designated for indians by indian treaty were often stolen by military caretakers and never delivered. During the process of disarming the Lakota, an old deaf native man was reluctant to give up his valuable rifle. The soldiers attacked the old native to forcibly disarm him, a shot was discharged which resulted in the 7th Cavalry who had previously fully surrounded the native encampment on all sides of over looking ridges, now ordered to open fire (on high ground) instantaneously soldires open fire from all sides, soldiers went blood thirsty, killing old men, especially women and children. They walked into camp and even shoot all wounded to be found. The soldiers were so anxious to shoot they even shoot some of their fellow soldiers killing them, claiming indians killed them. The Lakota elder men who still had weapon began shooting back at the over bloodthirsty soldiers, as soldiers advanced their weapons quickly killed the few hundred armed Lakota men and all the unarmed indians. Even though the few indians return fire ended at death the soldiers continued to fire thousands of rounds into the encampment. A few surviving Lakota escaped and lived to tell the oral truth of that horrible massacre, as later found and recaptured by soldiers. Cavalrymen chased down many fleeing woman, elders, children as from government forced the malnutrition, the few had not the energy to run far off as many soldiers killed all those who were even caught unarmed near the encampment.

By the time the massacre was over, more than 200 men, women, and children of the Lakota had been killed plus 51 were wounded only 4 elder men, estimated 47 women and children, as most died from wounds as medial attention was not administered to indians while in custody of Calvary, as they died later. Indians know the real number of dead was near 300, 300 not 200 soldiers had publicly claimed. Twenty-five soldiers reportedly died, ironically most were killed by own soldiers bullets who randomly shoot as fast as they could load their riffles, while 39 soliders were also wounded. The White House celebrated a great Indian victory as

public papers spread the "great massacres" as a Indian victory nation wide. White House awarded and ordered twenty soldiers be honored in awarding "20 Medals of Honor".

The National Congress of American Indians recently in USA passed two resolutions condemning the 20 Medal of Honor awards of Wounded Knee Massacre and called on the U.S.A. government to rescind those 20 Medals of honor for the truth finally emerged through independent studies validating facts hidden by government, soldiers, that day of this battle was indeed a Massacre, not a victory as White House self claimed, ironically as America goes around the Globe invading foreign countries all under the guise of Human Rights for All, as by US actions acting fully as a Hippocratic dictator. Clean up Americas third world conditions in America on native lands before going around the world with self claimed civil and human rights claims. The US government refuse to take back those 20 Medal of Honor medals, as it reveals the deep racism still embedded in America government and leading society.

Victor it will be my blunt duty to truthfully share facts if allowed on behalf of Millions of my younger indigenous brothers, sisters, children who's generations were massacred, murdered in the hundreds of thousands in Guatemala alone and also on all other Indian lands by forced global demands for access to the vast untapped indigenous natural resources on their Indigenous homelands lands through out the Western Hemisphere. There is a very dark side to reality socially avoided, nor typically spoken of by scholars for fear of being ostracized possibly ending a potential career dead in it's tracks. These are the horrific characters of colonizers in five centuries of leaderships of governments, foreign supporting churches, as all were embedded by inherited DNA of the expanding aged old European ruling tactics headed west, the watered down version is now imbedded in American capitalism. In the dark shadows of every earthy governance the driving force of greed is no longer well hidden, beneath the strength of elite families who inherited vast fortunes with a unquenchable thirst for ever growing their stolen land masses, poor and extreme Indigenous are still targeted in the 21 century.

As elite families strong business ties are the controlling influences with temporal four term elected leaders of all democratic political resigns. Europeans originally fleeing under cry's for relief from denied religious freedom and over taxation was unknowingly skillfully designed by government tacticchinars in a stealthy manor, as applied to early methodology of

colonization. As 16th century advisors to governments quickly knew there was a need for masses of European bodies required to invade countries through forced colonization, while the undercurrent of greed was hidden within the leaders decisive decisions to expand the worlds of European kingdoms. Ironically all greedy directives were even sacrilegiously sanctioned by leading church officials (whom lived as wealthily as kings and princes) who all supported the largest western invasion witnessed on Mother Earth, in the name of church and God, as new discoveries took place, they stood on native soils and stated, we claim this "land in the name of the King, Queen and church". Europeans came in masses to over power the homelands of indigenous of North and South Americas all for personal gain, empowerment. Raping Mother Earth of its natural resources in nature almost to extinction.

After reading the above, it is No wonder indigenous do NOT Trust investors, governments, elect families of anyone.

This is why my new economic modle is astounding Wall Street, I as a successful native Indian bring a earned element of Trust for the first time into Latin American Indian country, North America Indigenous peoples. As the indigenous have verbalized in past 20 years they are willing to allow me to represent all their natural resources in hopeful distribution to the globe. The opportunities in energy, new oil fields, agriculture, mining, forestry, tourism etc. are endless. The Inter-Development Bank of Latin America (IADB) is the largest Latin financial institution, who did a vast in house study years ago of how to acquire 5% be added to their bottom line through out Latin America. The IADB found out by accident a major discovery. One fourth of all land bases in all of Latin America (25%) is in indigenous control, million upon millions of acres of untapped resources. The world is fighting each other in a shark tank for the 75% exposed latin American resource opportunity in a Wall Street normal cut throat business. I wish to offer Russia, honorable President Putin a new economic opportunity of mega proportions in a message to President Putin, I can assist Russia to gain a new foot hold on indigenous controlled lands in south America where NO business is presently existing, the one fourth land base under their control. Cuba in not even a drop in the bucket compared to the massive volumes of available mega projects on Indigenous land bases, untapped, NO global competition, no one can circumvent AASHA or Barry with these indigenous, as AASHA has established that exclusive TRUST relationship.

Now onto the massive future economic opportunities of Latin and north Americas on native controlled lands. The fact that South America contains's the earths largest untaped deposits of natural resources as the top 5 leading countries desperately are seeking stealthy those resources. As old indigenous prophecy tell of a new Indigenous era is to start, at ending of Mayan 5,000 plus year old challenger on December 21,2012. As also prophesied and affirmed in prophesy of "Eagle meeting the Condor in the Lands of the quetzal", as even the North American Native indigenous prophecies all concur in simular fashion as a new native era is going to start. The visits of myself as a elder brother of the north where the eagle is set atop of our Iroquois native Tree of Peace, as I visit and bring a new vision for my younger brothers in Latin America, my cousins of south America are accepting my message of "Unity- Peace - empowered through Economics" partnering in a new beginning, a win, win, win for investors, governments, countries, even elite families and finally the Indigenous peoples are at table of economic success, as a first!

Summary, as the Mayan 5,000 year old calendar ended on December 21, 2012 the world stood in aah hanging on every media mention, articles ruled by sensationalism thriving on public apprehension through fear "the End of the World" was near, while Indigenous truth is avoided. However, the non Mayans fully misunderstood the Mayan prophesy, as global media theme's were far from the truth. The millenniums old inherited wisdom of the Mayans states the end of their calendar is a START of a "New Era" for Indigenous people! Important to know in our time as identified, this new beginning, starting here for all our generation, in this 21st century through vision of economic partnering. I wish to enlighten the leaders and people in powerful positions, influential people in attendance by sharing those prophecies. They are spirit driven connected to our Creator of Mother Earth, known by indigenous. It will reveal a revolutionary mind set on how Indigenous can, for the first time, provide their own budgets for the full needs for their people. Surprisingly, this requires NO tax-based handouts by governments in support of native involvement in mega projects. For the first time, Indigenous can have self-generated revenue. The earth is seemingly running out of resources as Nations tour globe looking under every rock to supply their country's needs. We see Nations against Nations, clamoring for first rights to new resources globally on the 75% of Latin lands, cut throat style. Unsuspecting investors do not know indigenous can amass thousands to protest projects, paralyze cities, roads and shut mega projects down permanently. This is a known international fear and now AASHA turns it into a strength through AASHA's trust relationship ability, where no indigenous protests shut down projects but instead for first time in history of five centuries, support project if

AASHA is involved on their behalf. The untapped 25% of lands AASHA has access to in Latin America and north America under relationship of TRUST are waiting for the right partners, in AASHA offering these new partners offering partners first rights to natural resources. Guided under "Peace and Unity," an initiative welcomed and engineered by AASHA, an unmentioned reality is indigenous with hand picked partners are happy to know that desperately needed natural resources are now accessible without the use of force (with Unity), nor killings (brings Peace) is reachable as a Win, Win and Win relationship with a new era of economic vision.

In north America, 80% of the largest coal deposits are on Indian lands, literally 10's of billions of metric tons engineered certified. Southern native Utes earn a billion a year off its natural gas wells, natural gas in America is a opportunity. The largest Oil field discovery is the Balken Oil in Dakotas, mostly on indian lands, it is extra sweet, a total supply larger then the Sands in British Columbia and Alaska oil fields combined, over a hundred year supply. The largest opportunity AASHA analyses is wind energy in natural wind in America. The USA energy department did a ten year study of where the most constant winds in America are, the US found out 50 indian reservation have the highest consistent wind. Out of these 50 tribe they study only 10, the US Government conservative answer was, if these 10 tribes used all their wind energy they could supply America with one third of all its electricity by wind. They nicked named these 10 tribes Saudies of wind. AASHA has a unique opportunity in trust to form all four opportunities into one organization forming the largest utility company on earth, I am willing to meet potential partners?
